

# The International Informational Medicine Symposium

March 16 – 17  
2013 at the  
historical  
Sundvolden near  
Oslo - Norway

## World leaders and authorities reveal the secrets of the next generation knowledge in medicine and epigenetics

The International Informational Medicine Symposium (TIIMS) 2013 is pleased to invite you to this year's most exciting conference. The speakers at the conference are world leaders in their fields. Lectures, demonstrations and debates will be at an academic level, but our experience is that anyone who has an interest and understanding in health and medical topics will benefit and are encouraged to participate.

Revolutionary research and clinical methods will be presented at TIIMS 2013. Some key areas of importance for future understanding of the treatment of nearly all chronic illnesses are:

- **Wave genetics - knowledge and ability to directly influence gene expression and 98% of DNA**
- **Electromagnetism in new diagnostic methods unknown to most Western physicians**
- **Frequencies and fields as key concepts in future treatment of "disease" or dysregulation**
- **The heart as the body's main communication center**
- **Human existence and our connection to electric fields**
- **Informational fields and quantum physics in theoretical and medical practice**
- **Research on consciousness and the effect on matter (humans, the environment)**

Visit. Professor  
Marcus Schmiede

Professor  
Konstantin  
G. Korotkov, PhD.

James L. Oschman,  
Ph.D.

Rollin McCraty, PhD.

Dr. Nuno Nina

# SPEAKERS

**Visit. Professor Marcus Schmieke**, Dev Sanskriti University i Haridwar, India. Marcus studied physics and philosophy in Hannover and Heidelberg for 6 years. He then spent 12 years in Vedic monasteries as a monk. Combining these two aspects of his life, he developed the TimeWaver System for Information Field Medicine, integrating information medicine and frequency therapy. He has published more than 20 books on science and Vedic knowledge and is currently working on the development of new frequency and energy medicine technologies as an extension of the existing TimeWaver product line in cooperation with Dr. Nuno Nina and other pioneers in the industry.

**Professor Konstantin G. Korotkov PhD.**, Korotkov has held the following positions: Deputy Director of Saint-Petersburg Federal Research Institute of Physical Culture; professor of Computer Science and Biophysics at Saint-Petersburg Federal University of Informational Technologies, Mechanics and Optics; professor of the Adaptative Physical Culture at Saint-Petersburg Federal University of Physical Culture and Sport; president of the International Union for Medical and Applied Bioelectrography.

Dr. Korotkov has published over 200 papers in leading journals on physics and biology, - and holds 17 patents within biophysics. He has authored 9 scientific books.

His specialty, known as electrophotonics, is based on a gas discharge visualization technique (GDV), a breakthrough beyond Kirlian photography for direct, real-time presentation of human energy fields. One of the greatest benefits of his inventions is the ability to perform “real-time” measurements of a variety of treatments for various conditions, including cancer to determine which is the most appropriate for the client. These hold great promise for future diagnosis and treatments of physical, emotional, mental and spiritual conditions with applications in medicine, psychology, sound therapy, biophysics, genetics, forensic science, agriculture and ecology.

**James L. Oschman, Ph.D.** is President of Nature’s Own Research Association in Dover, New Hampshire, USA, and is the author of Energy Medicine, the scientific basis. He lectures internationally on energetic systems and how they explain various alternative practices. His expertise is in biophysics, and he will discuss the way the living matrix system within the body acts as the unconscious epigenetic link between words, thoughts, and energy fields in the environment and vital physiological and genetic functions. He will also present late-breaking news on the benefits of Earthing or grounding, and what this is teaching us about the functioning of the immune system.

**Rollin Mc Craty PhD.**, is Director of Research at the Institute of HeartMath. His research includes the physiology of emotion, intuition and optimal functioning, i.e. on the mechanisms by which emotions influence cognitive processes, behavior, and health as well as the global interconnectivity between people and the earth's energetic systems.

**Dr. Nuno Nina**, IDH, Pioneer University, holds a PhD in homeopathy from Ansted University. Fellow of Biochemical Medicine, in engineering of decisional systems and mathematics. Educated in "Clinical science of the Medical biochemist Dr. Schüessler" and General Director for Integrative Medicine, IT and radio engineer. Nuno is an outstanding therapist an inventor.

# Programme

## Saturday March 16

0830-0930 Registration

0930-1130 **Nuno Nina**

-The cause of chronic disease is always the same. Causality based medicine based on 20 years of work, 45.000 patients in clinical practice and research and development of new treatments.

1130-1145 Coffee break

1145-1245 **James L. Oschman**

-The living matrix is the physical and energetic substrate for vital communications throughout the body. It is the largest system in the body as it touches all of the other systems.

1245-1345 Lunch buffet

1345-1445 **James L. Oschman** continues

-Biophysical properties of the living matrix explain anti-oxidant effects of Earthing and as well as the incredible sensitivity of the organism to external energy fields and epigenetic influences.

1445-1515 Coffee break

1515-1715 **Konstantin G. Korotkov**

-Energy fields can be measured and influence body, mind, water and environment. 50 years of research summarized.

Workshop with technology demonstration.

1715-1830 Break

1830-1945 Open workshop

2000 Dinner

## Sunday March 17

0730-9000 Breakfast

0900-0930 Registration new participants.

0930-1130 **Rollin Mc Craty**

-Heart Coherence: The Key to Optimal Health, Intuition and Facilitating the Global Shift.

1030-1145 Coffee break

1145-1245 **Marcus Schmieke**

-Information fields, medicine, and quantum physics.

Workshop with practical demonstration.

1245-1345 Lunch buffet

1345-1500 **Marcus Schmieke** continues.

1500-1515 Coffee break

1515-1630 **Konstantin G. Korotkov**

1630-1730 Personal meetings and discussions.

## CONGRESS ORGANIZER:

Kongresspartner • [www.kongresspartner.no](http://www.kongresspartner.no) • Tel. +47 922 42 756

Registration, programme, prices and schedule for registration: [www.kongresspartner.no](http://www.kongresspartner.no)

Please register before January 20, 2013 (late registration + Euro 82).

We have reserved rooms at Sundvolden Hotel, [www.sundvolden.no](http://www.sundvolden.no)

**Please book seminar and hotel at [www.kongresspartner.no](http://www.kongresspartner.no)**

Invoice will be sent by email and you must arrange payment with your bank.

We regret we can not offer payment by creditcard.

For prices in English, click [HERE](#)

Registration in English, click [HERE](#)

Transport information from Gardermoen Airport:

Bus directly from the airport (B29) to Sundvolden Hotel.

Visit [www.asketladden.net](http://www.asketladden.net)

Question about the seminar except booking, please send to:

Jan Fredrik Poleszynski, tel. +47 951 767 97, [www.unovita.com](http://www.unovita.com), [jfp@unovita.no](mailto:jfp@unovita.no)

WE WISH YOU ALL WELCOME!
