PSN takes no position on the issue of UFOs, including criticisms by detractors.

The book

*Mirage Men: An Adventure into Paranoia, Espionage, Psychological Warfare, and UFOs*

By Mark Pilkington, Skyhorse Publishing 2010, argues that much of the UFO mythology since the 1980's, including stories of crashed UFOs, harvesting of cattle, and manipulation of human DNA, may have been the result of government actions, to hide the fact that many UFOs were in fact highly advanced US military aircraft.

The book has been adopted for video: <http://www.miragemen.com/>

Given that, according to *Mirage Men*, the US military is responsible for 'UFOs', and actually ginned up 'evidence' of extra terrestrial UFOs, and also given the mentality of US citizens to NOT critically analyze the government's account regarding a number of events, including the destruction of three World Trade Center buildings on September 11, 2001, it is perhaps NOT surprising that the internet is rife with claims that the US government may be planning a UFO attack on the 'world', and will blame it on extra terrestrials. (google 'false flag UFO attack')

Retired CIA senior analyst Melvin Goodman (1966-86) notes that the CIA encouraged the idea of attributing UFOs to an extra terrestrial presence (at 3:30-4:05 minutes into this YouTube video):

A YouTube posting of an apparent ABC ('channel 15') news program notes that two retired firemen have

Published a Fire Officer's Guide to Disaster Control, (available via Amazon.com) whose 13<sup>th</sup> chapter is: 'Enemy Attack and UFO Potential'. The retired firemen authors are William M Kramer and Charles W. Bahme.

*The Sirius Mystery* is a book by Robert K. G. Temple, first published in 1976. It presents the hypothesis that the Dogon people of Mali, west Africa, preserve a tradition of contact with intelligent extraterrestrial beings from the Sirius star-system.

The “mystery” is how the Dogon allegedly acquired knowledge of Sirius B, the invisible companion star of Sirius A.

Temple suggested an ancient ET connection was behind the sudden appearance of advanced

civilization in both Egypt and Sumeria. Carl Sagan, Ian Ridpath, and James Oberg have argued that the knowledge was most likely based on a dogon connection with European astronomy.

In an expanded edition of her bestselling book, *The Phoenix Lights...A Skeptic's Discovery That We Are Not Alone*, Dr. Lynne D. Kitei is now sharing the "rest of the story" since coming forward after seven years of anonymity in 2004 as the key witness to the AZ mass UFO sighting called the "Phoenix Lights". Besides a comprehensive update, she is finally revealing the first scientifically analyzed photographic evidence of "missing time", studied and presented by Navy Optical Physicist, Dr. Bruce Maccabee in 1999, but kept private by Dr. Lynne for over a dozen years. Her hope is that this stunning data may help shed 'light' on the reality that other times and spaces are existing along with ours - as Dr. Michio Kaku and noted quantum physicists have long theorized. Her groundbreaking information takes a unique step forward in raising awareness that we are not alone in the Universe. \*\*\*

Mark Woodhouse in his book *Paradigm Wars* states on extraterrestrial cultures " It has become clear that major governments have covered up both what they know and their own involvement in this area. Chapter 14 explores why I believe a cover up has been perpetuated, and why the answers to the question of ETs are coming sooner than we might think. The truth about ETs is far more complex than most imagine." [P. 41.]
